Software license agreement
for the FPO product from Goodstock GmbH

1.   Granting a license for use
1.1.   Goodstock GmbH (hereinafter: the "Licensor") shall grant the Licensee a right to use (license) the FPO Software (hereinafter: the "Software"). This license shall be free of charge, unrestricted and for an un-limited term. The scope of delivery shall not include supplying the source code.
1.2.   The Software shall be supplied via a download from the Licensor's website. This may require registration with the Licensee's name and e-mail address. The Software can be protected with a license key.

2.   Transfer of the Software.
        The license does not authorise the Licensee to transfer the Software. It may only be procured from the Licensor.

3.   Changes to the Software.
3.1.   The Licensee shall solely be entitled to decompile and duplicate the contractual Software if this is le-gally permissible. However, this shall only apply if the Licensor has not provided the Licensee with the information required in this regard upon request within a reasonable period.
3.2.   In particular copyright notices, serial numbers and other characteristics which serve to identify the program may not be removed from the contractual Soft-ware or changed.

4.   Exclusion of warranty and guarantee claims.
4.1.   The characteristics and functionality of the con-tractual Software can be found in the product de-scription on the Licensor's website. The information provided therein constitutes a non-binding descrip-tion and not a guarantee or warranty.
4.2.   The Licensor does not assume any warranty or guaran-tee that the Software is free from defects or works in a particular manner.

5.   Exclusion of liability
5.1.   The Licensor excludes all liability.
5.2.   The Licensor shall also not be obliged to pay com-pensation for any damage or consequential damage that results from the delivery, performance or use of the Software.
5.3.   In particular it shall not be liable for the loss or replacement of data.
5.4.   This exclusion of liability shall also apply to per-sonal liability of the seller's employees, represent-atives and executive bodies.

6.   Cancellation
6.1.   This license agreement shall apply until it is can-celled. The Licensee can cancel the agreement at any time by destroying the Software together with all copies thereof. In addition, the Licensor can cancel the agreement if any of the conditions or provisions of this agreement are infringed. In the event of such a cancellation, the Licensee undertakes to destroy the Software together with all copies thereof.

7.   Miscellaneous
7.1.   This license is subject to German law and exclusive-ly the jurisdiction of German courts.
7.2.   The exclusive place of jurisdiction is Cologne.
7.3.   If individual provisions of this agreement should be invalid, this does not affect the validity of the re-maining provisions. The contracting parties will strive to find a valid provision to replace the inva-lid provision, which most closely meets the economic content of the invalid provision.
